## Hardie Backer 6mm & 12mm

James Hardie tile backer is the best alternative to ply or plasterboard for fitting behind tiles in bathrooms and wetrooms, as it will not deteriorate when wet.

500006	1200 X 800 X 6MM TILE BACKER	£ 10.04
500731	1200 X 800 X 12MM TILE BACKER	£ 10.45

500848	SCORE AND SNAP KNIFE	£ 8.11

## 22mm Fibre Cement Structural Flooring

FLOOR22	22MM T&G STS CONSTRUCTION BOARD 2400MM X 500MM	£ 31.81
---------	--	---------

No More Ply Tongue & Groove Board has a number of advantages that make it a far superior alternative to plywood floorboards. Being constructed from fibre cement means that they are inert, and not subject to deformation due to atmospheric conditions or water – the material doesn't change shape, rot or expand like chipboard, plywood and other timber-based materials.. They are extremely dense and stable, waterproof and have A1 rated fire resistance.

No More Ply Tongue & Groove Boards can be tiled onto directly, without the need to overboard first, and are compatible with most types of tile adhesives and timber adhesives such as MS polymers, PU Acrylic etc. They are suitable for interior and exterior use

## White Fasciboard

## Brett Martin Cast Iron Style Guttering

Brett Martin Cascade cast effect guttering is the most authentic plastic cast iron guttering on the market. It uses a unique patented manufacturing process to create cast iron detailing on the guttering, downpipes, hoppers and fittings to give the full appearance of cast iron but with all the benefits of a modern uPVC plastic rainwater system.

### Cast Iron Effect Half Round Guttering
